

Adding text notes to your Mind Map

1. Select the branch

Before adding a text note, ensure that you highlight the branch you wish to add your text note to.

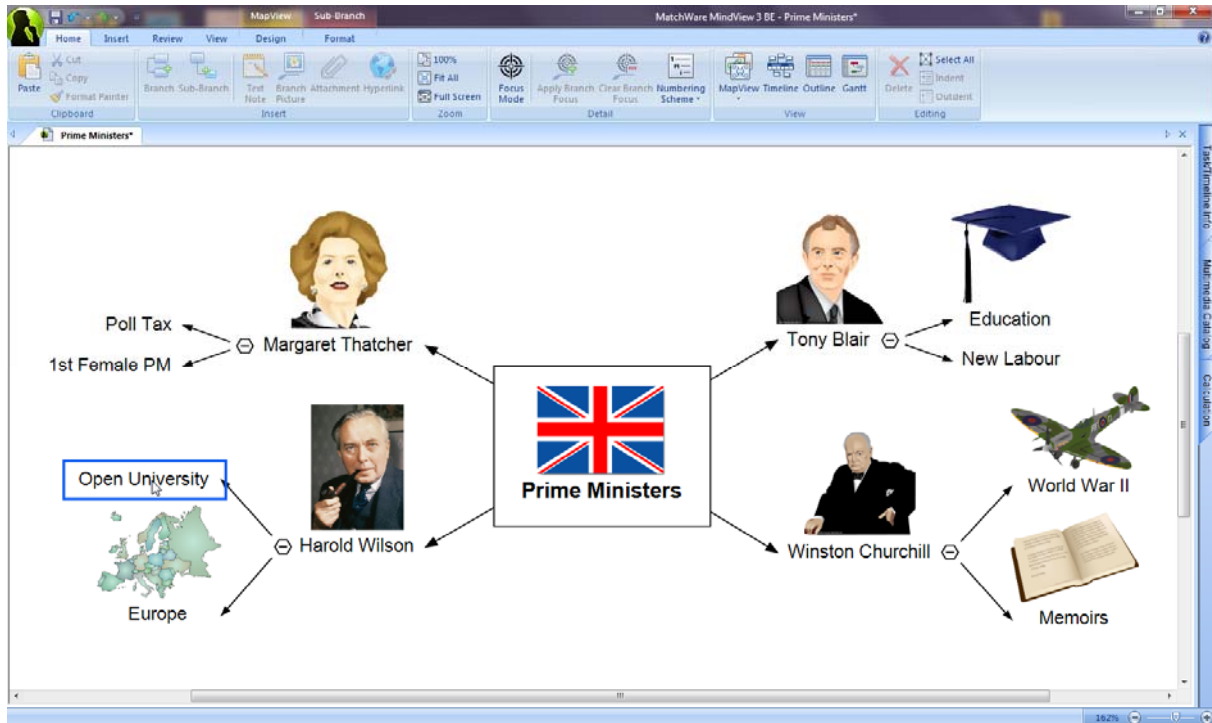

Figure 1

2. Launch the text note editor

Once you have selected the appropriate branch you can launch the text note editor by clicking on the button on the fluent ribbon.

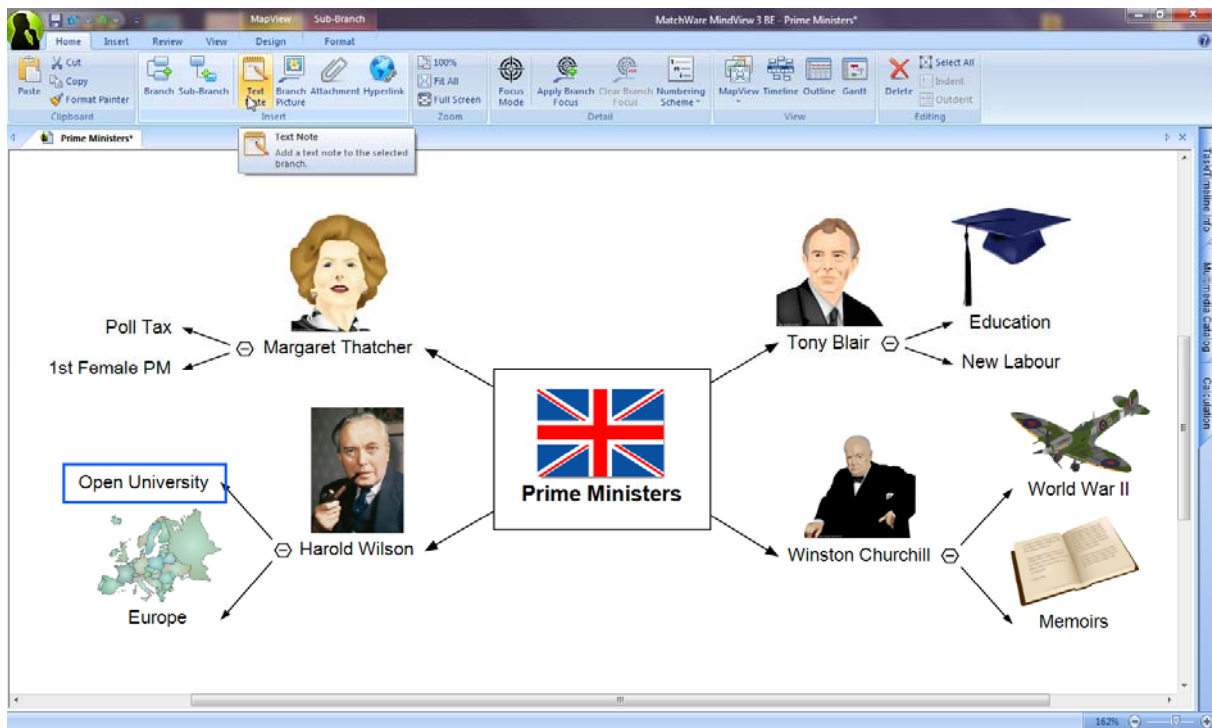

Figure 2

3. Fluent ribbon changes to Word 2007 style ribbon

To ensure continuity in learning once the text note editor is launched, the fluent ribbon changes to the Word 2007 style ribbon.

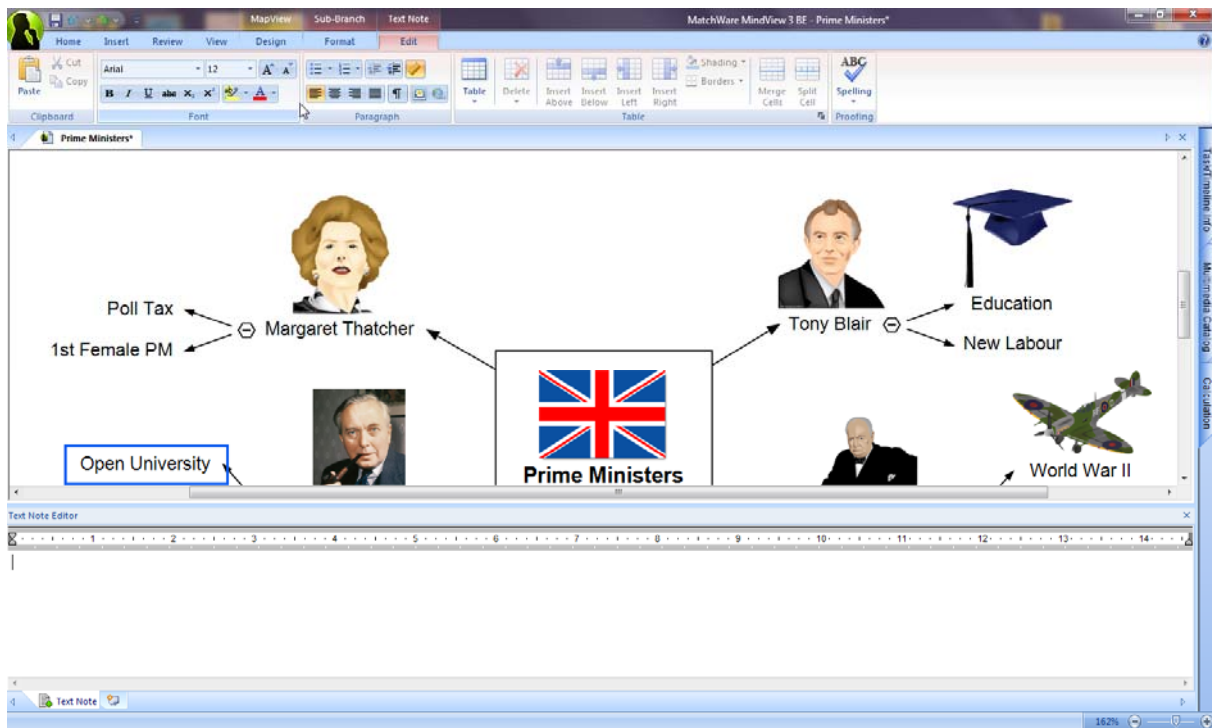

Figure 3

4. Add the text note

You are now able to add in text notes. You can add in notes, bullet points, tables or pictures into this editor as you would do in a standard Word document.
