## Overview

This document provides a description of the technical details about MatchWare MindView Assist.

MatchWare MindView Assist is an extension of MindView taking your research to the next level. MindView Assist accelerates information gathering when researching for assignments, essays and reports. MindView Assist also manages task information which can be synchronized with tasks within MindView desktop using the MindView Task System.

## System Requirements

**iOS** 12.1 (or higher)

**Android** 7.0 (or higher)

500MB disk space

The following data types are supported: Photo, Video, Audio, Text and Files.

Supported languages: English, German, French, Danish, Norwegian.

## Installation

MindView Assist requires an active account at <https://accounts.matchware.com> and a valid MindView Suite subscription.

MindView Assist app is available for:

**iOS from the Apple Store**

<https://apps.apple.com/app/id1627489152>

**Android from the Play Store**

<https://play.google.com/store/apps/details?id=com.matchware.mindview.resapp>

## Login

Login to MindView Assist is provided by the MindView Activation System <https://accounts.matchware.com>.

The following providers are supported:

MatchWare Login, Microsoft Account Login (Office 365), Google Account Login and Apple Login.

NB. Apple login requires that an account is registered with the same email as for the MindView subscription.

Please refer to the MindView Drive Technical Specification for further information:

[https://link.matchware.com/mvdrive\\_technical\\_spec](https://link.matchware.com/mvdrive_technical_spec).

## MatchWare Activation System

Mandatory activation is required when using MindView. When activating the Product certain information about the Product and the device will be sent to MatchWare. This information includes version, build

number, language, product ID and computer ID which is generated from the hardware configuration. By using the Product you consent to the transmission of this information.

The activation is using the site: <https://accounts.matchware.com>

## MindView Task System

The MindView Task System is served from <https://cdn.matchware.com> and communicates with the Task System API using the Hypertext Transfer Protocol Secure (HTTPS) via the standard port 443 to the following URL: <https://api.mindview.app>.

## Audio Transcribing

MindView Assist uses a trained speech recognition model embedded in the application bundle and lets user download larger models from <https://cdn.matchware.com>.

## Bibliography Sources

Search for Bibliography Sources using Worldcat® is provided by API at <https://bibsearch.matchware.com>.

## Help and Support

MindView Assist can open extra links for providing support: <https://faq.matchware.com>, <https://www.matchware.com> and <https://link.matchware.com>.
